PROJECTS

Rhythmiq

MongoDB, Express.js, React.js, Node.js, Socket.IO

📅 November 2024 - November 2024

- Integrated real-time synchronization for room features.
- Implemented secure Login/Signup functionality including Google OAuth integration.
- Implemented features enabling users to play songs, create personalized playlists, follow/unfollow artists.
- Added functionality for users to share playlists, allowing others to add shared playlists to their own library.

Elite Cinema

MongoDB, Express.js, React.js, Node.js, Tailwind CSS

📅 June 2024 - July 2024

- Secure Login/Signup: Implement email verification and password recovery options.
- Allow users to create and manage a list of movies they plan to watch.
- Support multiple streaming qualities to cater to different internet speeds. Include essential video player controls like play, pause, rewind, fast-forward, volume control, and fullscreen mode.
- Develop a content management system that allows admins to add, edit, and delete movies and trailers.
